

## **IRON AND STEEL BRIDGES**

A steering group meeting was hosted by CIRIA on 2<sup>nd</sup> March 2006 in Old Street during which the first draft report was discussed. Unfortunately the discussions were somewhat truncated because of time constraints and members were asked to comment formally by email within two weeks of the meeting. A request for photographs, drawings etc for inclusion in the report was also made by Gifford WSP.

The Highways Agency has had to pull out from membership of the steering group because of a shortage of staff. It is hoped that they will continue as a corresponding member.

The next steering group meeting is scheduled for 25<sup>th</sup> July 2006.

John Clarke 15 May 2006
