QUALIFIED INSPECTORS 2020

Update

The further developments to the BICS site are due to go live shortly. All of the users were transferred over last year so there will be no impact to the data, but the site will be streamlined and enhance the user experience.

Slight delays have occurred because of furlough and the COVID19 situation.

There are a couple of scheme documents that that need to be updated and finalised before the users are manually transferred over this will be completed by November 6th and the changes will be communicated to users and stakeholders.
